A supply company built on one clear route

Venturis is a Mauritius-based supply company focused on drinks and food FMCG. Rather than spreading across categories, we concentrate on doing sourcing and supply well in the sectors that matter to our clients: beverages and packaged food.

Our base in Mauritius gives us a natural advantage — a stable, well-regulated jurisdiction positioned between African demand and Asian and European supply, with the trade infrastructure to move goods efficiently in both directions.

We work directly with producers and distributors to secure consistent supply, competitive terms and dependable delivery timelines.

Two categories, sourced properly

We keep our focus narrow so quality control, supplier relationships and logistics stay tight.

Beverages

Spirits, wines, beers and soft drinks — sourced from established producers with consistent supply agreements.

Food FMCG

Packaged and staple foods, sourced and consolidated for reliable, recurring supply to distributors and retailers.

Supplier Vetting

Every supplier is assessed for product quality, documentation and delivery reliability before onboarding.

Logistics & Documentation

Shipping, customs paperwork and delivery scheduling handled end-to-end, so clients receive goods on time.

WHY VENTURIS

Built to be a dependable partner, not just a

supplier

Credibility in FMCG supply comes down to consistency. Here's how we protect it.

01

Strategic base

Mauritius offers a stable, well-regulated jurisdiction with established trade and shipping links across Africa, Asia and Europe.

02

Focused category expertise

We work exclusively in drinks and food FMCG, so sourcing decisions are informed by real category knowledge, not spread thin.

03

Direct supplier relationships

We deal directly with producers and distributors, reducing intermediaries, cost and points of failure in the chain.

04

Transparent documentation

Every shipment is backed by complete trade documentation — invoices, certificates of origin and compliance paperwork.

HOW WE WORK

A straightforward process, start to delivery

01

Requirement

We start by understanding volumes, categories and delivery timelines needed.

02

Sourcing

We match the requirement against vetted suppliers and negotiate terms.

03

Logistics

Shipping, customs and documentation are coordinated through Mauritius.

04

Delivery

Goods arrive on schedule, with full paperwork and ongoing supply continuity.
